NUCLEAR GEOPHYSICS

INTERNATIONAL JOURNAL OF RADIATION APPLICATIONS AND INSTRUMENTATION PART E

EDITOR-IN-CHIEF

C. G. CLAYTON, *Sprole House, 125 Knights End Road, March, Cambridgeshire PE15 9QD, England*

EDITORS

J. CSIKAI, *Institute of Experimental Physics, Kossuth University, Bem ter 18/a, Pf. 105, 4001 Debrecen, Hungary*

J. A. CZUBEK, *Henryk Niewodniczanski Institute of Nuclear Physics, ul Radzikowskiego 152, 31-342 Krakow, Poland*

V. I. FERRONSKY, *Water Problems Institute, 103064 Moscow K-64, Sadovaja-Chernogrjazskaya 13/3, Russia*

T. FLORKOWSKI, *Institute of Physics and Nuclear Techniques, Academy of Mining and Metallurgy, al. Mickiewicza 30, 30-059 Krakow, Poland*

R. P. GARDNER, *Center for Engineering Applications of Radioisotopes, North Carolina State University, Raleigh, NC 27695-7909, U.S.A.*

P. G. KILLEEN, *Mineral Resources Division, Geological Survey of Canada, 601 Booth Street, Ottawa, Ontario, Canada K1A 0E8*

D. A. KOZHEVNIKOV, *Kathedra of Geophysical Research in Boreholes, Moscow Ghubkin Institute of Oil Chemistry & Gas Industry, Moscow 117917, Leninsky Prosp. 65, Russia*

W. R. MILLS, *1808 Manor Lane, Plano, TX 75093, U.S.A.*

J. S. SCHWEITZER, *Schlumberger-Doll Research, Old Quarry Road, Ridgefield, CT 06877-4108, U.S.A.*

F. E. SENFTLE, *Department of Physics, Howard University, Washington, DC 20059, U.S.A.*

A. B. TANNER, *12125 Captiva Court, Reston, VA 22091-1204, U.S.A.*

J. S. WATT, *CSIRO Division of Mineral Engineering, Private Mail Bag 7, Menai, NSW 2234, Australia*

M. R. WORMALD, *AEA Industrial Technology, Harwell Laboratory, Oxfordshire OX11 0RA, England*

Published Quarterly in March, June, September and December

Publishing Office

Pergamon Press Ltd, Pergamon House, Bampfylde Street, Exeter EX1 2AH, England
[*Tel.* Exeter (0392) 51558; *Fax* 425370].

Subscription and Advertising Offices

North America: Pergamon Press Inc., 660 White Plains Road, Tarrytown, NY 10591-5153, U.S.A.
Rest of the World: Pergamon Press Ltd, Headington Hill Hall, Oxford OX3 0BW, England
[*Tel.* Oxford (0865) 794141].

Subscription Rates

Annual Institutional Subscription Rate (1993): £286.00 (US$543.00). Sterling prices are definitive. U.S. dollar prices are quoted for convenience only, and are subject to exchange rate fluctuation. Prices include postage and insurance and are subject to change without notice.

Back Issues

Back issues of all previously published volumes, in both hard copy and on microform, are available direct from Pergamon Press offices.

Second class postage paid at RAHWAY NJ. Postmaster send address corrections to *Nuclear Geophysics*, c/o Pergamon Press Inc., 660 White Plains Road, Tarrytown, NY 10591-5153, U.S.A.

List of Contents

NUMBER 1

SPECIAL ISSUE FROM THE U.S.S.R.

D. A. Kozhevnikov	V	Editorial
Ph. Kh. Enikeyeva, D. A. Kozhevnikov, V. V. Miller, A. P. Ochkur, A. L. Polyachenko and **R. T. Khamatdinov**	1	Nuclear geophysics in the U.S.S.R. Status and trends
D. A. Kozhevnikov, I. A. Kozachok, V. V. Kulik and **Yu. V. Yakolev**	21	Neutron petrophysics: an analytical approach
T. A. Berkova, A. V. Baranovskaya, N. N. Yemelyanova and **V. D. Neretin**	41	A computer method of core-log adjustment
A. M. Blumentsev, V. N. Dydychkin, A. A. Dyliuk, B. Yu. Melchuk, A. A. Starinskii, V. G. Tseitlin and **A. S. Shkolnikov**	45	A calibration system for pulsed neutron logging
A. V. Baranovskaya and **T. A. Berkova**	49	The use of different time measurements in the pulsed-neutron method for shaly-sand interpretation
A. G. Amursky, V. N. Dydychkin, A. A. Dyliuk, A. A. Starinsky, M. V. Shipunov and **A. S. Shkolnikov**	55	Instrumentation and methodology for a two-probe pulsed-neutron logging (TPPNL) system
G. D. Likhovol and **V. M. Telenkov**	59	Controlled oil-bed parameters during exploitation by nuclear-geophysical methods
R. P. Gottikh, V. V. Miller, B. I. Pisotzkiy and **A. I. Spiridonov**	67	Nuclear methods in petroleum geology
V. V. Habarov and **E. N. Volkov**	73	Nuclear log data for potential evaluation of oil and gas presence in clay shales
I. M. Khaykovich and **S. I. Savosin**	79	Reliability estimation system: its application to the nuclear geophysical sampling of ore deposits
I. M. Khaykovich	87	Metrological assurance of radioecological research measurements
V. I. Ferronsky, T. A. Griaznov and **L. V. Selivanov**	93	The efficiency of the use of penetration nuclear logging in hydrogeology and engineering geology
V. A. Alekseev and **N. G. Alekseeva**	99	Investigation of metal transfer in the biosphere during gaseous emission in zones of tectonic activity using methods of nuclear-physics
M. S. Khoziainov and **A. V. Muradian**	111	A radio tracer method for rock filtration heterogeneity investigations
V. I. Guma, V. V. Miller and **V. P. Ogorodnikova**	117	Neutron interaction analysis in geological prospecting and mineral raw material processing
V. D. Neretin, Ya. L. Belorai and **I. Ya. Kononenko**	121	A study of permeability and porosity using nuclear magnetic resonance methods

D. F. Bespalov, N. F. Kolomiets, I. A. Martiyanov and A. E. Shikanov — 125 New trends in the development of controllable neutron generators for geophysical investigations in the U.S.S.R.

137 An international intercomparison of Monte-Carlo codes for use in nuclear geophysics. An invitation to participate

NUMBER 2

Announcement — V

W. E. Kenyon — 153 Review paper. Nuclear magnetic resonance as a petrophysical measurement

Michael M. Herron, Roy E. Dove and James A. Grau — 173 Compensation for mineral sodium interference in Ca and Gd thermal neutron capture gamma-ray logging measurements

H. Rahmanian and J. I. W. Watterson — 181 Neutron activation for logging the distribution of gold in bore-hole cores

J. Łoskiewicz, T. Cywicka-Jakiel and G. Tracz — 191 A computer assessment of the influence of humidity and ash content on the calorific value of Polish coals

I. M. Khaykovich — 205 Some theoretical considerations of natural gamma-ray spectrometry calibration

M. Banat — 213 Numerical analysis of a two member decay chain ($^{237}N_p \rightarrow ^{233}U$) in a fissured porous media

M. Dulinski and J. Dominik — 237 Density corrections in gamma spectrometry of lake sediments

T. Florkowski, T. Kostka and M. Kotas — 243 Measurement of underground neutron flux

B. Peucker-Ehrenbrink and C. Schnier — 249 Investigation of rare earth elements in quartz from the Bavarian Pfahl, Germany, by means of instrumental neutron activation analysis

U. Vulkan, G. Steinitz, A. Strull and H. Zafrir — 261 Long-distance (+100 m) transport of radon in syenitic rocks at Makhtesh Ramon, Israel

A. Heimann, G. Steinitz and H. Zafrir — 273 Irradiation of samples for $^{40}Ar/^{39}Ar$ dating using the Soreq Nuclear Research Center IRR-1 Reactor, Israel

N. P. Singh, B. Singh, K. Singh and H. S. Virk — 287 Autoradiographic study of uranium and thorium in fossil bones

H. S. Virk and B. Singh — 293 Correlation of radon anomalies with earthquakes in the Kangra Valley

Book Review — 301

NUMBER 3

S. A. Kerr, J. A. Grau and J. S. Schweitzer — 303 A comparison between elemental logs and core data

I. Lerche — 325 Probabilistic methods in well logging

M. W. Mickael	341	Importance estimation in Monte Carlo modelling of neutron and photon transport
Susan L. Herron, Joseph M. Chiaramonte and **James A. Grau**	351	Impact of statistical uncertainties of elemental concentrations on geochemical log interpretation
H. L. McKague, J. R Hearst, R. L. Ward and **N. R. Burkhard**	359	Nuclear magnetic resonance determination of the nonpore water content of zeolitic tuffs and its application to correction of epithermal-neutron-log-derived water content
N. R. Das and **D. Basu**	367	Alpha-activation analysis of refined petroleum
I. F. Gonçalves, J. Salgado and **F. G. Carvalho**	371	Calibration of a neutron moisture gauge by Monte-Carlo simulation
M. Borsaru, C. Ceravolo, P. Waddington and **Wenhao Gu**	383	A coal face ash analyser based on natural gamma-ray activity
Harinder Kaur, G. P. S. Sahota and **H. S. Sahota**	391	Measurement of uranium and thorium in coal fly ash and bottom ash samples from a thermal power plant by using a high resolution semiconductor detector
C. I. Sanchez, R. Garcia-Tenorio, M. Garcia-Leon, J. M. Abril and **F. El-Daoushy**	395	The use of ^{137}Cs in marine and lacustrine sediment dating
R. B. Galloway and **Y. Liritzis**	405	Provenance of Aegean volcanic tephras by high resolution gamma-ray spectrometry
A.-M. Jepsen, R. O. Thomsen and **I. Lerche**	413	Tertiary erosion estimates and resolution based on apatite fission track distributions in the Mors-1 well, Jylland, Denmark
Y. Liritzis and **M. Kokkoris**	423	Revised dose-rate data for thermoluminescence/ESR dating

NUMBER 4

J. A. Czubek	445	Scaling neutron fields in well logging
J. C. Reis and **M. Idrees**	487	Characterization of fractures using directional gamma-ray detectors and radioactive tracers
M. Idrees and **J. C. Reis**	499	Attenuation of gamma-rays from radioactive tracers in geologic formations
S. A. Raoof and **Z. M. S. Al-Amoodi**	513	Determination of trace elements in crude oils and in some refined products
C. Oliveira and **J. Salgado**	517	Comparative study of neutron fluxes and γ-ray count rates originated by ^{252}Cf and ^{241}Am–Be neutron sources in bulk coal by Monte Carlo simulation
D. Raj, K. S. Harchand and **V. Maini**	529	Mössbauer and x-ray analysis of iron minerals in bauxite
J. Kronfeld, G. Weinberger, A. Yaniv, H. Zafrir, U. Vulcan, M. Agami and **E. Rosenthal**	535	Uranium isotope disequilibrium studies and the geohydrology of the Arava Rift Valley, Israel
C. Papastefanou	547	Background radiation measurements in the lower atmosphere following the Chernobyl accident

M. Tufail, N. Ahmad, Sikander M. Mirza, Nasir M. Mirza, M. Sohail Sarwar and **M. S. Zafar** 553 Natural radioactivity in cements manufactured by various factories in Pakistan

C. W. Tittle 561 Addendum to "POROSITY: an improved porosity code for the CNL for desk-top computers"
